WE STRONGLY BELIEVE IN PROVIDING QUALITY SERVICES

OVERVIEW

Cyfinity Global provides information security, technical resourcing, consultancy, and cybersecurity training services in governance, risk, compliance, and IT audit services globally across various vertical industries and multiple platforms.

Cyfinity Global sees the need of providing information security audit and consultancy services through direct delivery and remote facilitation and review processes. We pride ourselves with having qualified and experienced consultants to serve the needs of clients locally and globally from the banking, manufacturing, telecommunication, academic and SMB industries.

Our consultants and trainers have extensive professional experience and have served various clients in the Asia Pacific, Middle East and the US markets.
